

Memorandum

*Flex your power!
Be energy efficient!*

To: ANDRE BOUTROS
Executive Director
California Transportation Commission

Date: September 16, 2013

From: RACHEL FALSETTI
Chief
Division of Transportation Programming

Subject: 2014 State Transportation Improvement Program (STIP) Cycle State Highway Needs

Consistent with the STIP Guidelines Section 20, attached is a copy of the programming recommendations and identification of state highway and intercity rail improvement needs for the upcoming STIP cycles. This information is being provided to all regional agencies for their consideration in their 2014 STIP cycle along with the 2016 and 2018 STIP cycles. The projects identified for consideration by the locals represent needs that could be funded by a combination of potential Regional Improvement Program and local fund sources. This results in the project fund needs exceeding the available STIP funding across the target time frame. The Department of Transportation is currently communicating these needs to their regional agency partners.

If you have any questions regarding the project lists or would like more information, please contact Bruce De Terra at (916) 653-0426.
